

Launching February 2023.

The Future of Private Hospital Care is Here... and Just Around the Corner

NEW North Bristol Private Hospital | Passionate About Patient Care

A Passion for Excellence

Naturally, we demand specialist care and absolute safety as part of a hospital treatment, and now you can expect even more. Best-in-class nursing support and clinical facilities, coupled with luxurious surroundings and supreme comfort - the future of patient care.

NEW North Bristol Private

Hospital (NBPH) is a world-class facility that has been created to surpass the general standard of private hospital care for patients, with safety and highly individualised, bespoke treatments at the heart of its offering. With an eye on the detail and patient welfare at its core, your stay at NBPH promises to provide the best possible recovery experience. With a small, controlled number of beds in the ward, nursing staff can provide individualised specialist care that you would expect at exceptional private hospitals, such as London's Harley Street.

Your Treatment, Our Speciality

Whether you are visiting us for cosmetic surgery, a routine operation or medical treatment, our facilities are designed to make your entire journey smooth, safe, relaxed and comfortable.

Home from Home

Patients can now experience expert care within exemplary facilities locally, with easy access from the airport, train station and M4 and M5 motorway junctions, without the need to travel to London, therefore removing any risks associated with long distance travel after major procedures. North Bristol Private Hospital is a first in this category, catering for Bristol and the Southwest.

The Wait is Over

This new facility of medical excellence is set to become the long-awaited private treatment epicentre for patients in Bristol and the South West of England and Wales.

Opening Offer

North Bristol Private Hospital will be offering an introductory opening promotion for the first 20 patients who contact us* of a free 15-minute mini cosmetic consultation, with our Expert Patient Advisor.

To book your free consultation appointment, please email us at info@NBPH.co.uk quoting 'Bristol Magazine' offer.

"Please meet our vibrant senior management team: Kelly Cavallo (back centre) is our Hospital Operations Manager, in charge of running our facility and staff to the highest standards, Ms Elena Prousskaia, Consultant Plastic Surgeon (front centre) is our Medical Director, Maria Porter (right) is our theatre manager who is in charge of running our theatres safely and efficiently, together with Lynn Cottle (left) as our Administration Lead and Patient coordinator who is always there for our patients to make every step of their journey with us a wonderful experience."

A Hospital Stay Worth Shouting About
